REFERENCE : Memo dtd 10 July 58 to DD/S fr SA/PD/DCI,
subj: "Settlement of [redacted]"

25X1

Since [redacted] was negotiated, administered and settled by your Project Staff, I believe the purpose to be served by the review suggested in referenced memorandum would be to profit from any lessons learned by the Project Staff in the handling of this Contract. I, therefore, think that it would be more profitable and less time consuming to be briefed on the Contract rather than to have the pertinent documents submitted for my review. Accordingly, I shall be pleased to receive such a briefing and if it is agreeable to you I think it would be profitable for the personnel listed below to participate:

H. Gates Lloyd
Lawrence R. Houston
James A. Garrison

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : Settlement of Contract

1. The original contract for support of Project AQUATONE -- Contract with Lockheed Aircraft Corporation -- has recently been settled. This contract was negotiated, administered and settled by the Project staff and since it is both the first contract written on behalf of the Project and also the largest single contract written by our Project, I feel that it would be of interest to you to review the accomplishments thereunder and the terms of settlement.

2. Please advise whether you would desire a briefing on this contract or only a submission of the pertinent documents for your review. It occurs to me that Mr. James A. Garrison would have an interest in this matter and should you desire, we would be pleased to also brief him on the case, either in conjunction with you or independently.
